Subject: Sanctuary proposal

Hi

I am writing you because I have heard that you are passing legislation to limit boats to 10 mph, close beaches to humans and fence them off, charge tour operators incredible amounts of money to operate.

This is absolutely ridiculous. I am in favor of protection of the seas and the ocean animals but it sounds to me that you are getting incredibly out of hand! The animals have been making extreme comebacks along the island of Kauai. Whales are in incredible abundance, turtles are flourishing, and it appears monk seal are in higher numbers.

If you are stopping fishing, beach going and boat activities you will have chaos in the streets. Tourism will cease to exist if visitors can not enjoy our beaches and boat tours.

I vote no on any proposal you are making unless you come to your senses and make better decisions.

I support eco conservation but not what has been described to me.

INTERESTINGLY ENOUGH, I can not find your proposals on your site. Please send them to me. Thank you..
